

Minh Triet Pham

Melbourne, VIC | minhtrietmt3@gmail.com | [linkedin/in/minhtrietp](https://www.linkedin.com/in/minhtrietp) | [github/minhtrietcancode](https://github.com/minhtrietcancode) | minhtrietp.portfolio

EDUCATION

The University of Melbourne

Melbourne, Australia

Bachelor of Science in Data Science, WAM: 83.667/100

Expected Nov. 2026

- **Relevant Math Coursework:** Vector Calculus (93), Linear Algebra (93), Calculus 2 (91), Statistics (85)
- **Relevant Computing Coursework:** Algorithms & Data Structures (94), Object-Oriented Software Development (93), Foundations of Computing (93), Foundations of Algorithms (85)

TEACHING EXPERIENCE

Python Programming Instructor

Jul. 2025 - Oct. 2025

Freelance Programming Education

Remote

- Led 11-week Python course for 10 students achieving 85% deep understanding rate through adaptive curriculum
- Guided all students to complete 2 hands-on projects each while maintaining 90% code quality standards
- Designed flexible curriculum accommodating diverse learning styles and skill levels for varying technical backgrounds

Private Mathematics Tutor

Mar. 2022 – Nov. 2024

Freelance Mathematics Education

Hybrid

- Delivered personalized mathematics instruction across multiple levels, improving student performance by 50% on average
- Developed customized lesson plans tailored to individual learning gaps and accelerated concept comprehension
- Adapted pedagogical approaches to diverse learner needs across 3 years of personalized one-on-one tutoring

PROFESSIONAL EXPERIENCE

AI Engineer

Jul. 2025 - Oct. 2025

AI @ DSCubed - autonomous AI systems development

Melbourne, Australia

- Built Discord assistant agent integrating Notion and Discord APIs, boosting organizational productivity by 15%
- Optimized FastAPI endpoint performance through architectural refactoring, achieving 10% reduction in API call latency
- Minimized API consumption costs by 25% through LLM prompt engineering and token optimization utilizing LangChain
- Accelerated CI/CD deployment cycles by 20% implementing containerized Docker workflows for infrastructure consistency

AI Engineer Intern

May 2025 - Jul. 2025

Elcom - computer vision technology solutions

Hybrid

- Processed 1,000,000+ images for training computer vision models achieving high-performance detection accuracy
- Developed automated license plate recognition system detecting car numbers and attributes for 100,000+ vehicle images in high-speed road systems using YOLO and TensorFlow
- Implemented face recognition model for automated attendance checking system using OpenCV
- Crawled and curated 1,000,000+ images from diverse sources to build training datasets for CV models

PROJECTS

SmartStudy: AI Learning Platform | Python, FastAPI, LangChain, React, Docker

[Link](#)

- Reduced deployment time by 75% through containerized Docker architecture enabling rapid, consistent application delivery
- Developed user-friendly React interface achieving 50+ real active users with intuitive learning experience design
- Reduced API call latency by 20% through intelligent optimization strategies using LangChain and FastAPI

Immigration Law AI Assistant | Python, Flask, LangChain, Sentence-Transformers, PyPDF2

[Link](#)

- Processed 1000+ immigration law pages using PyPDF2 achieving 95% text extraction accuracy
- Built tree-based search reducing query time by 99% and embedding costs by 10,000 times
- Improved LLM response quality by 85% leveraging RAG technique and LangChain for context retrieval
- Created Flask web interface enhancing user experience by 80% enabling seamless interaction with legal chatbot

HONORS & AWARDS

Melbourne International Undergraduate Scholarship | The University of Melbourne

May 2023

Third Prize | Vietnamese Mathematical Olympiad

May 2023

TECHNICAL SKILLS

Programming Languages: Python, Java, C/C++, Javascript (React), SQL (MySQL)

Developer Tools: Git (GitHub/GitLab), Docker

Libraries: PyTorch, TensorFlow, Scikit-learn, OpenCV, Pandas, NumPy, Matplotlib, BeautifulSoup
